RASUL

An intimate atmosphere in the steam of the hammam amid romantic Middle Eastern architecture. Let yourself be tempted by a new experience from an old tradition.

The Rhassoul or Ghassoul is a healing earth extracted in Morocco. Due to the unique properties of the sludge, pollutants and slag are removed from the skin and the peeling defect prepares the surface of the skin for the absorption of nourishing substances. This treatment is one of the best ways to promote the regeneration of skin cells. As in a clay mask, the Rhassoul absorbs impurities from the skin, without destroying the natural hydrolipid film (which protects against external influences). To give the whole a gentle fragrance, do not hesitate to ask the Spa Personal if they add a few drops of an essential oil of your choice.

Soin Thalasso Visage A pleasantly cooling power mask with seaweed for an extra portion of moisture. Experience a unique feeling of invigorating freshness and maximum care and well-being. BODY PACKS

The basis of our applications is the Soft Pack Couch. Enjoy a body pack of your choice floating in this special waterbed. The pack is applied to the body while you are lying down and then wrapped in thin foil so that your skin can optimally absorb the positive effects of the product. The Soft Pack blanket is heated to a pleasant 39 °C, which causes a rapid opening of the pores.

Alpine Hay Pack Enjoy the natural perfume of organic hay. It has an invigorating and strongly purifying effect and also relieves tension.

Cleopatra Pack Experience a silky soft skin feeling and a royal delight made of skincare oils and goat's milk. The high-quality oils hydrate the skin, have a balancing and slightly moisturising effect. Vitamins and minerals pamper your skin and make it velvety soft.

Heida Wine Marc Pack This very effective fruit acid treatment removes dead skin cells, refines the skin and promotes blood circulation.

each pack 40 minutes

for CHF 65.–

Chocolate Pack The flavanols contained in dark chocolate make the chocolate pack an optimal scavenger of free radicals, which accelerate the aging process of the skin. In addition, the cocoa bean has antidepressive and antirheumatic properties. It also has a strong moisturising effect and is therefore particularly suitable for dry skin. Pleasant side effect: The skin still smells of chocolate hours after.

Mud Pack The valuable ingredients of the natural peat mud in combination with gentle heat help with rheumatic complaints, arthrosis and tension. In addition, this therapy has anti-inflammatory effects, activates the metabolism, relaxes muscles and relaxes cramps.

Thalasso Pack This vitalizing and detoxifying pack made of algae stimulates the metabolism, refines the skin's appearance and stimulates lymph flow.

Evening primrose wrap Hydrating, highly effective oils and healing micronutrients pamper your skin. This calming treatment is especially recommended for people suffering from neurodermatitis and psoriasis.
